Rohmann GmbH

Eddy Current Test Instruments and Systems

Aircraft-Symposium 2010 Frankenthal March 2 & 3, 2010

INVITATION to the 2010 Aircraft-Symposium

We cordially invite you to ROHMANN GmbH's third international Aircraft-Symposium in our Frankenthal-facility March 2 and 3, 2010.

Just like for our symposiums in 1999 and 2001 we put together a number of interesting presentations by international aviation experts. Find out about the latest trends in NDT and compare notes with professionals from Germany and abroad.

There is no registration fee for the symposium. Do you have questions or need further information regarding this event? Then please contact Mrs. Angela Parker at phone +49 (6233) 3 78 92 80 or e-mail parker@rohmann.de.

We are looking forward to welcoming you to Frankenthal!

Rohmann GmbH

The program at a glance

We are pleased that we were able to recruit the following specialists for our event:

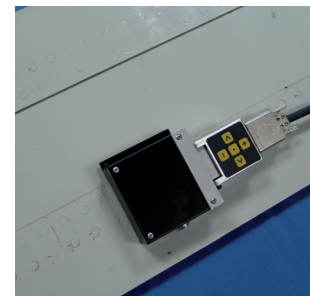

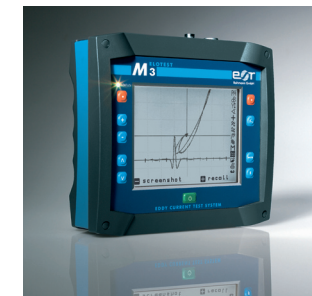

- **Paper by Mr. Tony Dunhill, Rolls-Royce, Great Britain**
„From Dip and Splash to Computer Tomography“ - A look at how Rolls-Royce is developing the traditional NDT methods as well as some more obscure techniques.“
- **Paper by Mr. Gerhard Mook, Phd, Otto-von-Guericke-University, Germany**
“Probe Arrays for Image-Generating Eddy Current Testing” – Using array-technology for fast inspections of surfaces with C-scan evaluation.
- **Paper by Mr. Ithurralde, EADS CCR, France**
The title of the paper was not available at press time.
- **Paper by Mr. Pierre Marty, INDY, France**
The title of the paper was not available at press time.
- **Paper by Mr. Etienne Juliac, TURBOMECA, France**
The title of the paper was not available at press time.
- **Paper by Ms. Desmet, AIRBUS, France**
The title of the paper was not available at press time.
- **Paper by Mr. Markus-F. Hagen, VECTOR GmbH, Germany**
„Eddy Current in 3 Levels of Qualification – Training based on EN 473 and ISO9712“
- **Paper by Mr. Uwe Salecker, Lufthansa Technik Frankfurt, Germany**
Evaluation of the Crack Length on Aircraft Structures using Ultra-sonic and Eddy Current Inspection

Additional Presentations

We are pleased to present some of our products:

- **Presentation & demo “The EloScan – Automated Inspection” - Dirk Rohmann, Rohmann GmbH, Germany**
Over the past 10 years the EloScan inspection system has made a name for itself and in 2009 received yet another GE-approval for the inspection of dove tail slot bottoms.
- **Presentation & demo “EloWheel – The Universal Test System for Aircraft Inspection”- Dietmar Griem and Gerald Schneibel, Rohmann LP, USA and Rohmann GmbH, Germany**
Thanks to continued development the system has been optimized for the inspection of aircraft wheels.
- **Presentation “Applications in Aviation”- Lutz Lindecke, CNS, Germany**
Examples for applications in production and maintenance.
- **Presentation “Potential Applications of HF- and LF-Array Technology on Aircraft Components” - Gerald Schneibel, Rohmann GmbH, Germany**

Come together – March 2, 2010 starting at 19:00 hrs

Wrap up the first evening by enjoying a delicious dinner with us. Discuss your thoughts or take the opportunity to network.
